ICASA Values

Necessity	ICASA is committed to evidence-based regulation ensuring that regulation is only introduced where there is a demonstrable need. The Authority furthermore intends to ensure that regulatory compliance does not become a barrier to the development of a sustainable ICT sector by simplifying or reducing regulation, wherever possible or appropriate.
Effectiveness	ICASA is committed to achieving its identified goals and to delivery on its mandate, taking into account the impact of such decisions .
Proportionality	ICASA aims to impose obligations in an objective, transparent and proportionate manner, where intervention is necessary .
Transparency	ICASA strives to work within a consistent, fair and certain set of parameters, and to ensure decisions are evidence based and fully reasoned, and that any decision-making process is open and accessible .
Accountability	ICASA is formally accountable to the Parliament of South Africa and, through the appeals system, to the courts. ICASA remains conscious that it ultimately serves end-users.
Consistency	ICASA pursues its legal responsibility to ensure consistency in its actions .

Delivery Agreement

**Outcome 6: An efficient, Competitive and Responsive
Economic Infrastructure Network**

Output 1: Improving Competition and Regulation

**Output 5: Information and Communication
Technology**

ICASA Strategic Objectives (1)

1. Ensure effective participation by HDIs in the industry

- Promote the empowerment of historically disadvantaged persons, including Black people, with particular attention to the needs of women, youth and persons with disabilities.

2. Ensure the provision of broadband services

- All South Africans should have affordable access to reliable high speed broadband services.
- Regulatory policies must promote open access, technological neutrality and investment to ensure that broadband service providers have sufficient incentive to develop and offer broadband services as well as harness the capacities of the state in support of the provision of broadband services.

ICASA Strategic Objectives (2)

3. **Optimise the use of the radio frequency spectrum to support the widest variety of services**
 - Efficient and effective use of frequency spectrum promotes the growth and rapid deployment of innovative and efficient communications technologies and services.
4. **Promote the protection of consumers and accessibility for persons with disabilities**
 - Ensure the continued protection of consumers in the ICT and postal sectors, through advocacy and awareness raising programmes and a streamlined complaints handling system.
 - Ensure the needs of persons with disabilities are provided for and that there is compliance by operators to meet their requirements.

ICASA Strategic Objectives (3)

5. **Promote the development of public, community and commercial broadcasting services in the context of digital migration**
 - ICASA will promote the development of public, commercial and community broadcasting services which are responsive to the needs of the public, competitive, diverse and which promote a plurality of news, views and information and provide a wide range of entertainment and educational programmes, a proportion of which are locally produced.
6. **Ensure compliance with legislation and regulation**
 - ICASA will advocate for compliance with applicable laws and regulations in South Africa.
 - ICASA will also investigate and audit activities by licenced and unlicensed entities to ensure compliance.

ICASA Strategic Objectives (4)

7. Strengthen and modernise ICASA

- ICASA will be an efficient and highly productive regulator that maximises benefit to stakeholders, staff and management from effective systems, processes, resources and organisational culture.
- The Authority will promote internal and external service quality standards.
- ICASA will also:
 - Continue the Authority-wide capacity building programme focusing on staff development;
 - Maintain a close partnership with the Department of Communications and National Treasury to address funding shortfalls; and
 - Demonstrate financial viability and good governance throughout the organisation.

8. Promote competition

- Promote competition in the provision of electronic communications, postal and broadcasting services that supports the Nation's economy and the developmental goals of the Republic. The competitive framework should foster innovation and offer consumers a reliable meaningful choice in affordable services.

Promote diversity and choice of broadcasting services	Licensing of commercial Sound Broadcasting Service licence in Secondary Markets (Northern Cape, Free State and Eastern Cape)	Issue ITA for commercial sound broadcasting services
Efficient use of the numbering spectrum	Introduction of new Numbering Plan regulations and review of existing regulations affecting number allocation to foster competition	Finalisation of the Numbering Plan under the ECA by October 2011 Facilitate full implementation of Carrier Preselect regulations

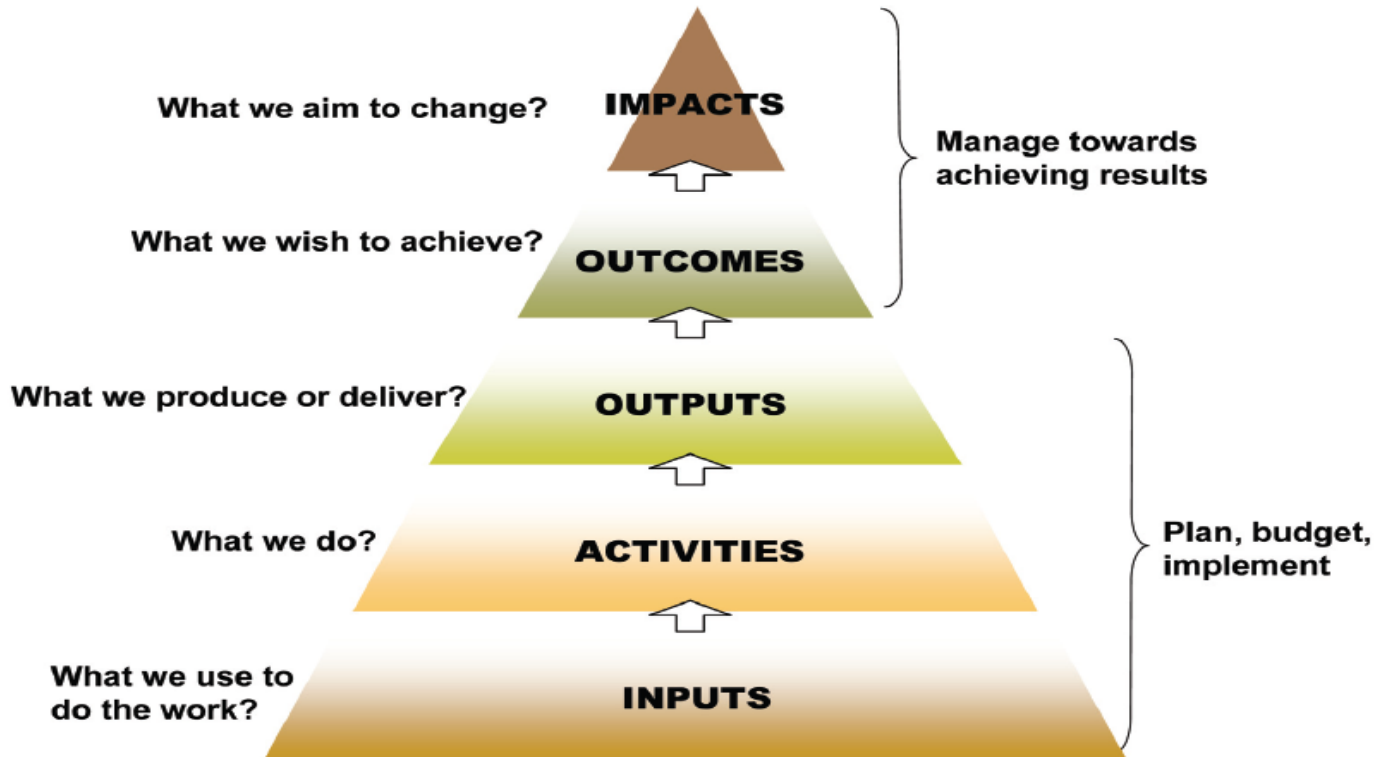

S0(8) Promote competition (3)

OUTPUTS	PERFORMANCE INDICATORS	2011/12
Promote and foster infrastructure sharing in the provision of postal services	Introduction of licensing framework for ETOEs and a regulatory framework to facilitate infrastructure sharing	Findings document on E-Post services and infrastructure sharing, including ETOEs. Regulatory framework for infrastructure sharing including ETOEs for efficient sharing of existing infrastructure
Sector intelligence reports, identifying changing trends in the ICT sector (broadcasting, postal and electronic communications)	Bi-annual reports on trends in the ICT sector	Annual report
Development of new pro-competitive remedies	Introduction of pro-competitive remedies to promote competition, e.g. Regulation of wholesale rates	Remedies in line with market reviews
		RFR for Call Termination

Inputs, activities, outputs, outcomes and impacts

Monitoring and Evaluation

- Strong Focus on outcomes and indicators in the corporate strategy
- Business plans (new approach) to capture outputs, activities, indicators, targets and inputs against the medium-term outcomes of the corporate strategy
- Quarterly Performance Information Reports
- Development of an Integrated Performance Information System
- Shareholder Compact (PMS) key measurement instrument which the DoC will use to assess the Authority's Performance

Forward Looking Plan

Compensation of Employees

An increased budget allocation will reduce the employee costs versus total budget allocation. In addition, a plan is being drafted to reduce expenditure from 60% to 40% for employee compensation over the next four years –

60% in 2011/12; **50%** in 2012/13; **45%** in 2013/14; and **40%** in 2014/15

Implementation of these ratios will be achieved by means of:

- Improved **work methods** to eliminate wastage of resources and duplication/overlaps of activities
- **Automation** of processes to enhance efficiency, effectiveness and quality outputs
- **Natural attrition** will create opportunity to redesign jobs and elevate competence requirements (retirements, resignations, incapacity and expiry of contracts)
- Conversion of remuneration structure to **Total Cost to Employer (CTE)** packages will provide accurate labour cost forecasts
- **Project related labour costs** must be a component of budgeted project costs

Administered Revenue

The Authority's budget allocation was Rm291 for 2010/11 and is Rm313 for 2011/12. However, in terms of Section 15(3) of the ICASA Act all monies ICASA collects in its regulatory activities must be paid over to the National Revenue Fund (NRF) within 30 days of receipt of such revenue.

Risks to achieving Strategic Objectives

- Overall lack of Funding:
 - Head Office Relocation
 - No availability of end-to-end spectrum management software
 - Lack of state of the art broadcasting monitoring equipment
 - Organisational restructuring and need for change management
 - Not having optimal funding for skills development and recruitment
 - No capacity to perform monitoring to ensure quality of communication services
- Lack of competencies to deliver at the right level
- Managerial 5 year contracts terminating simultaneously and without succession plans
- Resistance to Performance Management framework
- Delays in migration of terrestrial broadcasting from analogue to digital
- Ongoing litigation designed to delay the implementation of regulations
